## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 23-38 and 44, drawn to a surface treated steel sheet.

Group II, claim(s) 39-43 and 45-47, drawn to a method for manufacturing a surface treated steel sheet.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- The common feature of a surface treated sheet comprising a steel sheet, a plating layer, and a film on the plating layer as set forth in claim 1 cannot qualify as a special technical feature as it does not provide a contribution over the prior art because it is disclosed by WO 00-61835 A1 (see the international search report).

In particular, WO 00-61835 A1 teaches a steel sheet, a plating layer, and a film on the plating layer as set forth in claim 1 (page 5, lines 17-25; page 8, line 8-page 10, line 12). Therefore, the reference(s) specifically suggests using the common elements as claimed. As such, the common feature does not qualify as a special technical

feature. Therefore, as Group I and Group II lack the same or corresponding technical feature, they lack unity.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to AARON S. AUSTIN whose telephone number is (571)272-8935. The examiner can normally be reached on Monday-Friday: 7:30 AM to 4:00 PM.
